1. Pathway Title: BSc /BSc (Hons) Professional Development in Nursing

Final award titles:

BSc /BSc (Hons) Professional Development in Nursing

Graduate Certificate/Diploma Professional Development in Nursing

UCAS code N/A

HECOS code: 100290

2. Awarding Institution: University of Plymouth

Teaching institution(s): University of Plymouth

3. Accrediting body(ies) N/A

4. Distinctive Features of the Pathway and the Student Experience

This pathway acknowledges the diversity in the work settings of registered nurses and provides educational opportunities for Adult, Child, Learning Disability and Mental Health nurses. The focus of the programme is on professional issues and developments within their own fields of practice. The pathway title gives a clear identify to Nursing CPD provision post qualification. The pathway has been developed alongside the contemporary concerns about nursing as a result of the Francis report (2013) and the re-enforcing of Nursing values by the Chief nurse for England through the six C's of care. This will focus on compassion, fundamental care skills and recognition of the standards of care and practice to ensure patients receive a safe, dignified and respectful level of care. Students will examine their own practice area, reflect on their own practice and, importantly discuss and network with their peers. This will help them build professional networks and support while undertaking further study. The pathway is designed to build self esteem, motivation for learning and clinical decision making throughout the pathway.

The pathway is aimed to be as flexible as possible. All 5 modules of the programme will run over the academic year which will enable students to complete in their own timeframe. Most should complete in 2-3 years but have up to 5 years to do so depending on what APEL they may have to bring into the programme. All modules are 20 credits except for the Independent Study module which is 40

credits. This makes it very straightforward for the student to calculate in advance what credits they will need to undertake.

The BSc / BSc (Hons) Professional Development in Nursing pathway:

- Designed for students who want to progress in their career through gaining a graduate academic qualification,
- Offers a large number of options that meet professional and organisational needs to enhance practice and service delivery within an academic framework.

The Graduate Certificate / Graduate Diploma are:

- Designed for students who are already qualified at Honours degree level, either recently qualified and / or recently appointed to a new clinical specialist area that may need to develop their skills and underpinning knowledge in order to practice safely and competently.

Distinctive features

The distinctive features of these pathways are:

Core

- Targeted at the career development needs of health care professionals;
- Flexible and responsive to employers needs and service delivery;
- A student centred programme that enables choice and values prior experiential learning and experience
- Students can select clinical modules that enhance their specific work role;

Pathway Specific

- Valuing the individual learner and what they bring to the programme;
- Empowering students to learn and relating to them as adult learners;
- Encompassing a patient/client/family centred approach to Nursing;
- Developing compassion in our working and patient relationships;
- Collaborative working practices with the multi-professional teams;
- Making a commitment to improving our professional practice through critical analysis and reflection in and on clinical decision making;
- Supporting and encouraging the personal/professional development of our peers;
- Encouraging the development of sustainability literacy.

5. Relevant QAA Subject Benchmark Group(s)

The Pathway is informed by the Quality Assurance Agency (QAA) Framework for Higher Education Qualifications (FHEQ) in England, Wales and Northern Ireland for level 6 study (QAA for Higher Education 2008).

6. Pathway Structure

The BSc (Hons) Professional Development in Nursing Level 6 is based in the School of Nursing & Midwifery. This pathway is open to nurses registered either with the Nursing and Midwifery Council or the equivalent in the students respective country.

The BSc (Hons) Professional Development in Nursing Pathway offers the awards of BSc /BSc (Hons); Graduate Certificate or Graduate Diploma. The maximum registration period for the registrant is five years. Individual modules are offered as standalone CPD modules, apart from the Independent Study.

The pathway will include Understanding Evidence to Inform Clinical Decision Making, Clinical judgement and decision making in Healthcare; Ethical and Legal issues in Healthcare Practice; and Contemporary Issues in Health and Social care as core and if undertaking the honours route Independent Study. These core modules give the student a broad range of academic and practice related skills on which to build future studies.

Qualification	Breakdown of Credits
Ordinary Degrees (non-honours)	80 at Level 6
Honours Degrees	120 at Level 6
Graduate Certificate	60 at Level 6
Graduate Diploma	120 at Level 6 (includes 60 Certificate credits)

Example of a 3 year route

Year	Modules (and Credits)	Semester 1	Semester 2
1	Clinical judgement and decision making in Healthcare		
	Ethical and legal issues in healthcare practice		
2	Understanding Evidence to Inform Clinical Decision Making Practice based learning		
	Optional module		
3	Independent Study		

7. Pathway Aims

This pathway has been designed utilising a flexible framework as a guide to offer career progression for experienced staff working in clinical practice.

The pathway aims to facilitate students to:

1. Produce challenging and critical thinking practitioners with a range of transferable skills who can effectively contribute to service enhancement in a diversity of settings.
2. Prepare effective practitioners whose interventions will be underpinned by the best available evidence, contemporary knowledge and high-level clinical decision making skills.
3. Develop the student's confidence, competence and emotional resilience to consistently exercise personal responsibility and professional accountability for decision making and the provision of high quality, safe, care.
4. Promote commitment to the concept of life-long learning and thereby foster ongoing personal and professional development.

8. Pathway Intended Learning Outcomes

The Intended Learning Outcomes for the BSc (Hons) Professional Development in Health and Social Care reflect the Level 6 Qualification Descriptors provided by

the Quality Assurance Agency (QAA) Framework for Higher Education Qualifications (FHEQ)

Knowledge and understanding (subject specific)

Cognitive/intellectual skills (generic)

Key transferrable skills

Subject specific practical skills

Employment related skills

This enables 'others' to judge the value of this qualification through improved understanding of the level of intellectual and conceptual activity demonstrated by our graduates. It defines their capability in respect of their knowledge and the associated transferable skills that enhance employability. It also provides a reference point for other level 6 qualifications across the Higher Education sector.

8.1. Knowledge and understanding

On successful completion graduates should have developed:

- Review, critically analyse and use appropriately policy, guidance and evidence for practice
- Demonstrate a critical awareness of key aspects of knowledge within own practice area, and of nursing knowledge
- Demonstrate enhanced clinical decision making
- Reflect on practice, through a critical thinking, problem-solving, enquiry based approach
- Understand principles of sustainable nursing practice

These will be achieved through teaching and learning strategies that include: Lectures, seminars, workshops, self-directed study, and use of communication and information technologies.

Assessment methods include:

Essay, work-based Project Reports, Oral Presentations, Research critique and extended essay

8.2. Cognitive and intellectual skills

On successful completion graduates should have developed the ability to:

- Critically analyse and evaluate a range of clinical issues as related to the students professional area
- Think logically and systematically and draw reasoned conclusions and sustainable judgements in the context of nursing practice
- Develop problem solving and decision making skills in complex settings
- Reflect on practice, be able to influence and implement change where appropriate

These will be achieved through teaching and learning strategies that include: Group discussion, seminars, group and individual tutorials, on-line study tasks, e-technologies including narrated PowerPoint presentations, podcasts and interactive materials plus synchronous and asynchronous discussion.

Assessment methods include:

Essay, work-based Project Reports, Oral Presentations, Research critique and extended essay

8.3. Key and transferable skills

On successful completion graduates should have developed the ability to:

- Apply complex judgements underpinned by appropriate evidence in professional practice
- Exercise initiative, personal responsibility and accountability
- Contribute to the promotion of culture which enhances patient safety and patient centred care
- Identify personal and professional learning and development needs
- Manage time, prioritise workloads and recognise and manage personal emotions and stress

These will be achieved through teaching and learning strategies that include: Small group presentations, active participation in group discussions, problem based case studies, e-technologies including use of a managed learning environment to host a variety of study materials and synchronous and asynchronous discussions.

Assessment methods include:

Essay, work-based Project Reports, Oral Presentations, Research critique and extended essay

8.4. Employment related skills

On successful completion graduates should have developed:

- Recognise how service provision may be altered/enhanced to benefit patient experience
- Recognising limitations within their competency or scope of practice, understand and apply responsibility of own actions.
- Contribute towards practice development through networking, leadership, role development, clinical or service innovation and improvement
- Contribute towards the professional development of others
- Delegate effectively and support junior colleagues

These will be achieved through teaching and learning strategies that include:

Lectures, seminar, workshops, self-directed study group and individual tutorials, e-technologies including narrated PowerPoint presentations, podcasts and other use of communication and information technologies

Assessment methods include:

Essay, work-based Project Reports, Oral Presentations, Research critique and extended essay

8.5. Practical/Professional skills

On successful completion graduates should have developed:

- Critically defines and understands the limits of their competence.
- Able to act autonomously, within agreed guidelines, frameworks and protocols and to contribute to their development.
- Effective in complex and unpredictable contexts. Able to problem solve by selecting from a range of techniques.

These will be achieved through teaching and learning strategies that include:

Seminars, scenarios, group work

Assessment methods include:

A variety that are used throughout the programme incorporating assessment of transferable and practical skills. These may include: examinations, tests undertaken in team-based learning, essays including case studies and reflection, portfolios, presentations and project outputs.

9. Admissions Criteria, including APCL, APEL and DAS arrangements

9.1 Entry requirements

You will need to have a qualification in nursing from your country of residence that is equivalent to 120 Level 4 and 120 Level 5 UK Higher Education credits. You must also be a registered nurse in your country of residence.

Applicants for whom English is not their first language must have evidence of a minimum overall International English Language Testing System (IELTS) of 6.5 average with a minimum of 5.5 in each category.

For entry to the Graduate Certificate and Graduate Diploma award pathways, the student must already hold an honours degree in a health or health related subject.

Students are selected through their personal development plans (PDP) in negotiation with their employer or are self-funding.

A student, who successfully completes an additional 60 honours level 6 credits, can achieve the award of Graduate Certificate. If the student selects modules from specialist areas, there is an opportunity to gain a named Graduate Certificate.

A student, who successfully completes 120 honours level credits, can achieve the award of Graduate Diploma. If the student selects modules from specialist areas, there is an opportunity to gain a named Graduate Diploma.

9.2 Equality of Opportunity

The University aims to ensure that all applicants receive fair treatment. In line with its Strategic Plan, the University has strategies to promote equality of opportunity, widen participation and encourage access.

Further information on equality for students can be found at:

<https://www.plymouth.ac.uk/your-university/about-us/university-structure/service-areas/equality-diversity-and-inclusion/equality-objectives>

We welcome and support students with disabilities, and we endeavour to meet specific needs. The Disability Services, based on the Plymouth Campus, supports

disabled students across the University. Further information about the advice and support before, during and after application can be found at:

<https://www.plymouth.ac.uk/student-life/services/learning-gateway/disability-and-dyslexia>

9.3 Accreditation of Prior (Experiential/Certificated) Learning Information - APL

AP(C)L (Accreditation of Prior Certificated Learning) and AP€L (Accreditation of Prior Experiential Learning) refers to the process by which previous formal certificated learning and informal non-certificated learning may be awarded academic recognition. This recognition is in the form of academic credit awarded against module learning outcomes within accredited Further and Higher Education programmes.

Types of APL Claim

AP(C)L - Accreditation of Prior Certificated Learning by:-

- Verification of formal qualifications, including courses on the Faculty of Health tariff and any professional certificates completed.

AP€L - Accreditation of prior experiential learning:-

- Verification of experiential learning.

APL

- A combination of formal qualification and experiential learning.

The APL Process

The process of making an AP(E)L claim is structured and systematic, detailed information can be obtained from

<https://www.plymouth.ac.uk/study/cpd/recognition-of-prior-learning>

10. Titles and criteria for Final Awards

BSc /BSc (Hons) Professional Development in Nursing
Graduate Certificate/Diploma Professional Development in Nursing

11. Exceptions to Regulations

The following non-standard regs apply:

- There is no compensation within or across modules.
- Module pass criteria: All elements and components of assessment must be achieved, with a minimum of 40% for all percentage-weighted assessments.

12. Transitional Arrangements

This programme will commence from 2017 intake. Students on existing programmes will be able to continue under the new named programme and exit with the new named award if they have completed the core modules. Guidance will be provided by the Programme Lead and the Professional Development Unit, tailored to meet the individual needs of the student, their career aspirations and, to ensure alignment to the requirements of the programme and the relevant choice of exit award.

13. Appendices

- **13.1** Modules Mapped to Pathway Aims and Intended Learning Outcomes
- **13.2** Assessments against module mapping
- **13.3** Pathway Specific Module Choices
