

## Safety Information by Country

Countries are listed in this document if there is significant risk to LGBT people, female travellers or those who are HIV+. The risk has been determined by the British Foreign and Commonwealth Office (BFCO).

**If a country is not listed you should still complete thorough research before travelling; do not assume there is no risk.** This information is reviewed and updated regularly, however international laws can change with very little notice and so research via BFCO links attached to each country to ensure you are aware of all risks before travelling.

## EUROPE

	Anti-LGBT Laws	Limited Protection for LGBT Persons	No equality laws in place for women	Limited protection for women against sexual harassment	Ban on HIV+ persons entering the country
 <a href="#">Albania</a>				Risk to Women
