Final award titles:

BSc /BSc (Hons) Professional Development in End of Life Care

Graduate Certificate/Graduate Diploma Professional Development in End of Life Care

UCAS code N/A

HECOS code: 100292

2. Awarding Institution: University of Plymouth

Teaching institution(s): University of Plymouth

3. Accrediting body(ies) N/A

4. Distinctive Features of the Pathway and the Student Experience

The BSc /BSc (Hons) Professional Development in End of Life Care pathway is aimed at a wide range of healthcare professionals who are at various stages of their careers and professional development. Composed of intermediate and outcome awards designed to match a range of career aspirations. The awards are flexibly designed to enable participants to 'step on and step off' over a 5 year period in response to service need and professional circumstances. The programme offer an innovative approach to gaining specialist and advanced knowledge "tailor built" for the End of Life practitioner with assignments designed to translate knowledge and skills to the practice environment.

Concerns about the quality and experience of care at the end of life have been widely reported in recent years. The Leadership Alliance strategy for the Care of Dying People 'One Chance to Get it Right' (2014) sets new priorities of care to improve how dying people and their families are supported across all health and social care services. Hospices have longstanding expertise in providing high quality, tailored care which is highly responsive to the needs and preferences of dying people and their families. In addition the demographic pressures of an ageing society will see more people dying later in life from co-morbidities and frailty. The need for both the health and social care workforce to become skilled at managing those at end of life is compelling.

The NICE guidelines published in December 2015 covers the clinical care of adults (18 years and over) who are dying during the last 2 to 3 days of life. It aims to improve end of life care for people in their last days of life by communicating respectfully and involving them, and the people important to them, in decisions and by maintaining their comfort and dignity. The guideline covers how to manage common symptoms without causing unacceptable side effects and maintain hydration in the last days of life. This pathway reflects these latest guidelines and challenges the healthcare professional to seek best evidenced practice to achieve them.

This pathway will support a range of health and social care practitioners to enhance their knowledge skills and competencies to support others to provide a high standard of End of Life care in a range of health and social care settings.

The BSc / BSc (Hons) Professional Development in End of Life Care pathway is:

- Designed for students who want to progress in their career through gaining a graduate academic qualification specific to end of life.
- Meets professional and organisational needs to enhance practice and service delivery for professionals caring for patients at the end of their life within an academic framework.

The Graduate Certificate / Graduate Diploma are:

Designed for students who are already qualified at Honours degree level, either recently qualified and / or recently appointed to a new clinical specialist area that may need to develop their skills and underpinning knowledge in order to practice safely and competently.

Distinctive features

The distinctive features of this pathway are:

Core

- Targeted at the career development needs of health care professionals;
- Flexible and responsive to employers needs and service delivery;
- A student centred programme that enables choice and values prior experiential learning and experience
- Students can select clinical modules that enhance their specific work role;

Pathway Specific

- Explores pain and symptom management, from both pharmacological and non-pharmacological therapeutic interventions;
- Emphasizes the concept of culture and its importance in holistic care;
- Highlights the main sources of psychological distress in patients who have entered the palliative care stage of their disease trajectory;
- Allows the student to understand the common manifestations of 'normal' grief and therapeutic interventions in the facilitation of grief work in clinical practice;
- Offers a named specialist pathway that can be used to enhance career opportunities.

5. Relevant QAA Subject Benchmark Group(s)

The Programme is informed by the Quality Assurance Agency (QAA) Framework for Higher Education Qualifications (FHEQ) in England, Wales and Northern Ireland for level 6 study (QAA for Higher Education 2008).

6. Pathway Structure

The BSc (Hons) Professional Development Level 6 Programme in End of Life Care is based in the School of Nursing & Midwifery. This pathway is open to a range of health care practitioners registered either with the Nursing and Midwifery Council or the Health & Care Professions Council with experience of working within end of life care.

This named pathway BSc/BSc (Hons) Professional Development in End of Life Care offers the healthcare professional a specific named award to enhance their career opportunities and learning within this specialist field. These core modules give the student a broad range of academic and practice related skills on which to build future studies. These core modules are run at the university and taught by university staff and some are run under our academic partnership scheme taught by specialist End of Life practitioners.

The School of Nursing & Midwifery has worked with local healthcare providers in Academic Partnership (AP) to develop very specific work related modules accredited by the faculty at level 6 run in one or more care settings, delivered by the health care provider. APs have expanded over the years, including development of new modules to suit local workforce needs as required. All AP courses are integrated into the Professional Development Programme and presented at the Professional Development Academic Board. These AP modules highlight the strong relationships we have with healthcare providers, all quality assurance processes are followed and overseen by our Academic Partnership Lead.

Qualification	Breakdown of Credits
Ordinary Degrees (non-honours)	80 at Level 6
Honours Degrees	120 at Level 6
Graduate Certificate	60 at Level 6
Graduate Diploma	120 at Level 6 (includes 60 Certificate credits)

7. Pathway Aims

This pathway has been designed to develop and utilise appropriate skills whilst promoting an environment conducive to the provision of high quality care for End of Life patients requiring additional care and their families.

The pathway aims to facilitate students to:

1. Produce challenging and critical thinking practitioners with a range of transferable skills who can effectively contribute to service enhancement in the end of life setting.
2. Prepare effective practitioners whose interventions will be underpinned by the best available evidence, contemporary knowledge and high-level clinical decision making skills.
3. Develop the student's confidence, competence and emotional resilience to consistently exercise personal responsibility and professional accountability for decision making and the provision of high quality, safe, care.
4. Promote commitment to the concept of life-long learning and thereby foster ongoing personal and professional development.

8. Pathway Intended Learning Outcomes

The Intended Learning Outcomes for BSc (Hons) Professional Development reflect the Level 6 Qualification Descriptors provided by the Quality Assurance Agency (QAA) Framework for Higher Education Qualifications (FHEQ)

Knowledge and understanding (subject specific)

Cognitive/intellectual skills (generic)

Key transferrable skills

Subject specific practical skills

Employment related skills

This enables 'others' to judge the value of this qualification through improved understanding of the level of intellectual and conceptual activity demonstrated by our graduates. It defines their capability in respect of their knowledge and the associated transferable skills that enhance employability. It also provides a reference point for other level 6 qualifications across the Higher Education sector.

8.1. Knowledge and understanding

On successful completion graduates should have developed:

- An enhanced and systematic understanding of end of life practice
- Demonstrate an enhanced appreciation of uncertainty, ambiguity and the limits of their knowledge.
- Apply the additional methods and techniques that they have learned to review, consolidate, extend and apply their knowledge.
- Demonstrate a heightened and detailed awareness of personal responsibility and professional codes of conduct.
- Comprehensive and detailed knowledge of end of life practice.
- Systematically apply their additional knowledge to initiate developments in within the end of life practice area.

These will be achieved through teaching and learning strategies that include: Lectures, seminars, workshops, self-directed study, and use of communication and information technologies.

Assessment methods include:

Achievement of practice competences, Case based discussion, Case study reports/reflections, Procedure-based assessments, Research critique

8.2. Cognitive and intellectual skills

On successful completion graduates should have developed the ability to:

- Conceptual understanding to devise and sustain complex arguments and or solve problems.
- Critically comment on aspects of current evidence within end of life practice
- Critically evaluate arguments, assumptions, abstract concepts and data appropriate to end of life practice.
- Confidently and flexibly apply critically evaluated evidence to their practice.
- Awareness of and engagement with advanced scholarship within end of life practice.

These will be achieved through teaching and learning strategies that include:

Group discussion, seminars, group and individual tutorials, on-line study tasks, e-technologies including narrated PowerPoint presentations

Assessment methods include:

Essay, critical literature review, oral presentation, case study, critical reflections on practice.

8.3. Key and transferable skills

On successful completion graduates should have developed the ability to:

- Interact effectively within a team/learning/ professional group.
- Confidently apply own evidence informed judgement; can challenge, reflect and constructively use feedback.
- Systematically communicate information, ideas, problems and solutions to a range of fellow professionals in their specific field of practice.
- Effectively manages their own learning and utilises resources appropriate to their discipline/ practice.

These will be achieved through teaching and learning strategies that include:

Small group presentations, active participation in group discussions, problem based case studies, e-technologies including use of a managed learning environment to host a variety of study materials and synchronous and asynchronous discussions.

Assessment methods include:

Achievement of practice competences, Case based discussion, Case study reports

8.4. Employment related skills

On successful completion graduates should have developed:

- Exercises initiative, personal responsibility and team leadership.
- Can relate theory to practice appropriate to chosen disciplines.
- Critically aware of and contributes to local, national and professional policy agendas.

These will be achieved through teaching and learning strategies that include:

A wide range of student centred learning approaches, directed student and student led study with analysis and application to the service setting throughout modules.

Assessment methods include:

A variety that are used throughout the programme incorporating assessment of transferable skills. These may include: examinations, tests undertaken in team-based learning, essays including case studies and reflection, including both oral and practical skills assessment, presentations.

8.5. Practical/Professional skills

On successful completion graduates should have developed:

- Critically defines and understands the limits of their competence.
- Able to act autonomously, within agreed guidelines, frameworks and protocols and to contribute to their development.
- Effective in complex and unpredictable contexts. Able to problem solve by selecting from a range of techniques.

These will be achieved through teaching and learning strategies that include:

Practical skills that will be taught in simulated environment and on placement settings

Assessment methods include:

A variety that are used throughout the programme incorporating assessment of transferable and practical skills. These may include: examinations, tests undertaken in team-based learning, essays including case studies and reflection, including both oral and practical skills assessment, presentations.

9. Admissions Criteria, including APCL, APEL and DAS arrangements

9.1 Entry requirements

The student will either need to be:

Registered Health and Social Care Professionals

OR

Health and Social Care workers in possession of level 5 studies/foundation degree.

Applicants for whom English is not their first language must have evidence of a minimum overall International English Language Testing System (IELTS) of 6.5 average with a minimum of 5.5 in each category.

For entry to the Graduate Certificate and Graduate Diploma award pathways, the student must already hold an honours degree in a health or health related subject.

Employment in a health care environment in which end of life care needs are delivered. Students are selected through their personal development plans (PDP) in negotiation with their employer or self-funding.

A student, who successfully completes an additional 60 honours level 6 credits, can achieve the award of Graduate Certificate. If the student selects modules from specialist areas, there is an opportunity to gain a named Graduate Certificate.

A student, who successfully completes 120 honours level credits, can achieve the award of Graduate Diploma. If the student selects modules from specialist areas, there is an opportunity to gain a named Graduate Diploma.

All students wishing to undertake a programme with clinical skills modules need to be working in an environment where they can meet the module learning outcomes.

9.2 Equality of Opportunity

The University aims to ensure that all applicants receive fair treatment. In line with its Strategic Plan, the University has strategies to promote equality of opportunity, widen participation and encourage access.

Further information on equality for students can be found at:

<https://www.plymouth.ac.uk/your-university/about-us/university-structure/service-areas/equality-diversity-and-inclusion/equality-objectives>

We welcome and support students with disabilities, and we endeavour to meet specific needs. The Disability Services, based on the Plymouth Campus, supports disabled students across the University. Further information about the advice and support before, during and after application can be found at:

<https://www.plymouth.ac.uk/studen-life/services/learning-gateway/disability-and-dyslexia>

9.3 Accreditation of Prior (Experiential/Certificated) Learning Information - AP(E)L

AP(C)L (Accreditation of Prior Certificated Learning) and APEL (Accreditation of Prior Experiential Learning) refers to the process by which previous formal certificated learning and informal non-certificated learning may be awarded academic recognition. This recognition is in the form of academic credit awarded against module learning outcomes within accredited Further and Higher Education programmes.

Types of AP(E)L Claim

AP(C)L - Accreditation of Prior Certificated Learning by:-

- Verification of formal qualifications, including courses on the Faculty of Health tariff and any professional certificates completed.

APEL - Accreditation of prior experiential learning:-

- Verification of experiential learning.

AP(E)L

- A combination of formal qualification and experiential learning.

The AP(E)L Process

The process of making an AP(E)L claim is structured and systematic, detailed information can be obtained from

<https://www.plymouth.ac.uk/your-university/about-us/university-structure/faculties/health-human-sciences/accreditation-of-prior-learning>

10. Titles and criteria for Final Awards

BSc /BSc (Hons) Professional Development in End of Life Care

Graduate Certificate/Diploma Professional Development in End of Life Care

11. Exceptions to Regulations

The following non-standard regs apply:

- There is no compensation within or across modules.
- Module pass criteria: All elements and components of assessment must be achieved, with a minimum of 40% for all percentage-weighted assessments.

12. Transitional Arrangements

This programme will commence from 2017 intake. Students on existing programmes will be able to continue under the new named programme and exit with the new named award if they have completed the core modules. Guidance will be provided by the Programme Lead and the Professional Development Unit, tailored to meet the individual needs of the student, their career aspirations and, to ensure alignment to the requirements of the programme and the relevant choice of exit award.

13. Appendices

- **13.1 Modules Mapped to Pathway Aims and Intended Learning Outcomes**
- **13.2 Assessment mapping of modules**
- **13.3 Pathway Specific Module Choices**

13.1b: Modules Mapped to Pathway Aims and Intended Learning Outcomes at Graduate Certificate and Graduate Diploma for students who have previously achieved BSc 80 credits/BSc Hons Degree 120 credits

Programme Intended Learning Outcomes	Module	Award
Knowledge and Understanding		
An enhanced and systematic understanding of the students area of study, part of which is informed by the defined aspect of the students chosen practice/ discipline of End of Life Care	Pathway Specific See 13.3	Grad Cert, Grad Dip
Demonstrate an enhanced appreciation of uncertainty, ambiguity and the limits of their knowledge	Pathway Specific See 13.3	Grad Cert, Grad Dip
Apply the additional methods and techniques that they have learned to review, consolidate, extend and apply their knowledge.	Pathway Specific See 13.3	Grad Cert, Grad Dip
Demonstrate a heightened and detailed awareness of personal responsibility and professional codes of conduct.	Pathway Specific See 13.3	Grad Cert, Grad Dip
Comprehensive and detailed knowledge of their specialist area of End of Life Care.	Pathway Specific See 13.3	Grad Cert, Grad Dip

Cognitive/Intellectual Skills		
Conceptual understanding to devise and sustain complex arguments and or solve problems.	Pathway Specific See 13.3	Grad Cert, Grad Dip
Critically evaluate arguments, assumptions, abstract concepts and data appropriate to their area of End of Life Care specific practice	Pathway Specific See 13.3	Grad Cert, Grad Dip
Key/Transferable Skills (generic)		
Confidently apply own evidence informed judgement; can challenge, reflect and constructively use feedback.	Pathway Specific See 13.3	Grad Cert, Grad Dip
Systematically communicate information, ideas, problems and solutions to a range of fellow professionals in their specific End of Life Care field of practice.	Pathway Specific See 13.3	Grad Cert, Grad Dip
Employment-related Skills		
Can relate theory to practice appropriate to chosen End of Life Care disciplines.	Pathway Specific See 13.3	Grad Cert, Grad Dip

Practical/Professional Skills		
Able to act autonomously, within agreed guidelines, frameworks and protocols and to contribute to their development	Pathway Specific See 13.3	Grad Cert, Grad Dip
Effective in complex and unpredictable contexts. Able to problem solve by selecting from a range of techniques.	Pathway Specific See 13.3	Grad Cert, Grad Dip

13.2 Assessment mapping of modules in the BSc/BSC (Hons) Professional Development in End of Life Care

Core Module	Credit	Formative Assessment	Summative
Understanding Evidence to Inform Clinical Decision-Making	20	Highly directed study to undertake reading and specific activities designed to provide formative feedback throughout the module	An essay that requires students to examine an aspect of care through a critical review of relevant research-based evidence; and to use their professional knowledge to discuss how the results from the research reviewed might contribute to the clinical effectiveness agenda in their workplace
Enhancing End of Life Care and Palliative Care Practice	20	Produce Critical pre and post course self-assessment measured against knowledge and understanding of the National End of Life Core Principles of the five Competencies Identify two end of life competencies that need development and provide a personal development plan that states how the competencies will be developed	A reflective case study which demonstrates critical analysis of the quality of care provided at end of life (EoL) and the supporting EoL competences, policies and care processes as related to their role Achievement of specified clinical competencies at skill level C or above
Facilitating Patient Centred Care and Choice through Advanced Communication Skills	20	Formative peer feedback of communication skills	A written reflective case study Achievement of specified clinical competencies at skill level C or above
Independent Study	40	Action learning sets – with peer and tutor feedback	Essay, to address the learning outcomes.

13.3 Pathway Specific Module Choices for End of Life Care Graduate Certificate/Diploma

HEAD344DL	Enhancing End of Life Care & Palliative Care Practice
HEAD354	Facilitating Patient Centred Care and Choice through Advanced Communication Skills
HEAD362	Clinical Decision Making in Healthcare Practice
HEAD363	Ethical and Legal Issues in Healthcare Practice
HEAD365	Contemporary Issues in Health and Social Care
HEAD366	Integrated Advancing Practice in Context
HEAD367	The Fundamentals of Health Assessment
HEAD355	Leadership and Innovation
HEAD304	Supporting People in Loss, Grief and Bereavement – Enhanced Practice
HEAD339	Tissue Viability: Core Knowledge for Practice
HEAC334	Management of Infection Prevention
HEAB343	Specialist Approaches to Palliative Care and the Management of Pain – Enhanced Practice
HEAB344DL	Specialist Approaches to Palliative Care and Symptom Management - Enhanced Practice
HEAB338	Introduction to Supportive and Palliative Care - Enhanced Practice
HEAB350	Supportive and Palliative Care and End of Life Care - Enhanced Practice
HEAD379	Enhancing Practice in Paediatric Palliative Care
HEAD391	Work Based Learning
