4. Distinctive Features of the Programme and the Student Experience:

Level 3

1. At Level 3, we offer a distinct inter-disciplinary learning environment which prioritises in-class and experiential learning. It offers higher levels of academic and pastoral support to the new students, while simultaneously developing a sense of being part of a wider student community. It offers Level 3 students the benefits of a Higher Education environment through a range of curricular and extra-curricular opportunities. We aim to provide opportunities for non-standard entry students to embark upon a degree programme.

Levels 4-6

2. At Levels 4-6, students study a wide range of periods and geographical contexts, a choice that is not always available in the departments of 'new universities', e.g.:
- early modern history
 - military history
 - East Asia
 - South Asian and Imperial history
 - US history

➤ Oral history

3. Students will work with tutors who are specialists, publishing in their field, and progress across the degree programme through research-informed teaching and learning.
4. Students will engage in seminar work that is grounded in primary sources at all levels of study, including sources at local records offices and at the National Archives at Levels 4, 5, and 6, and web-based and electronic sources. There is also an opportunity for Level 6 students to use the archives of the Roosevelt Centre in the Netherlands.
5. In Levels 5 and 6, students will increase their engagement with primary research, a process which culminates in the individually – researched 12,000-word dissertation based on primary sources.

Levels 3-6

Across their entire degree Programme, students will:

6. have the opportunity to be part of an active member of a community characterised by the ‘open-door policy’ of staff-student contact, which includes a personal tutorial system – their Foundation Stage Lead in Level 3, and their Personal Tutor in Levels 4, 5 and 6 – that applies a student friendly approach; instant access to tutors if available; designated office hours; appointment by email or phone.
7. benefit from a close relationship with local community history through Historical Association and Peninsula Arts activities.
8. Have opportunities for field visits as part of the curriculum and for one-year and, of special note in Level 5, options are open to experience one-semester exchanges with US and European universities.

7. Programme Aims

The BA (Hons) History with Foundation aims to facilitate and encourage a cumulative process of 'learning by doing'. Starting with Level 3, the Programme's learning environment emphasise the establishment of key learning skills and techniques which are developed and reinforced as demands gradually increase across each Level. As students progress to Level 4 and then 5, they will begin to make qualitative advances in a number of ways, for example, increased conceptual sophistication, increasing interpretive skill, a refinement of their ability to pose, refine, and pursue historical enquiries especially but which invite them to consider inter-disciplinary applications: this builds upon the Humanities ethos acquired across the four modules of Level 3. By Level 6, students will aim for greater independence of learning, and – based on specific historical interests they have identified and pursued across all for Levels – to explore a topic of full BA (Hons) level historical expertise that demonstrates their capacity for specialised sustained written analysis.

As the module choices on offer in Section 6 clearly indicate, History is not a sequential subject, even as its techniques, skills, and body of knowledge are acquired by gaining experience and knowledge across one's studies. To this end, there are History specific subject-specific aims which the BA (Hons) History with Foundation will introduce students to from the outset of their Programme, and which will come into fuller development as a student progresses:

1. To provide students with a knowledge and understanding of the history of a range of continents, power blocks, national and social groups, at different periods of time in the past.
2. To provide students with an understanding of the sequence of events (chronology) and major historical trends in early modern, modern and contemporary history.
3. To provide students with a detailed and systematic understanding of the theories underpinning historical interpretation and of the nature and function of historical controversy and argument (historiography).

4. To enable students to reach independent judgements based on a consideration of conflicting historical interpretations.
5. To enable students to undertake individual and independent research using primary and secondary sources.
6. To provide students with an understanding of the methodology of the use of primary sources and the relationship between primary sources and historiography
7. To enable students to approach historical problems from a range of multi-disciplinary perspectives: e.g. historical, literary, anthropological, sociological and gender-based.
8. To provide students with the ability to communicate arguments and ideas in a range of written and verbal formats and thus with a range of skills appropriate to employment and lifelong learning.
9. To foster values of critical enquiry, tolerance and citizenship, appropriate to employment and lifelong learning.

8. Programme Intended Learning Outcomes

Disabled Students and Disability Assist at Plymouth.

We welcome applications from students with disabilities. The subject team works closely with Disability Assist Services to enable students with a variety of physical and learning difficulties to access History. Each case is dealt with on an individual basis through negotiation and support through DAS. DAS assess the student's requirements, and the team meet with the student and DAS, and then have ongoing conversations with regards to support. In addition, tutors disseminate the relevant information as widely as possible to relevant academic staff who need to be made aware. In addition, staff put a lot of the materials online, and have a lot of electronic journals in the library. The diversity of History teaching methods and assessment forms means that the course works for a wide and diverse range of students.

10. Progression criteria for Final and Intermediate Awards

- a) If students withdraw from the programme after successfully completing Level 4, they are eligible for the award of a Certificate of Higher Education (CertHE).
- b) If students withdraw from the programme after the successful completion of Levels 4 and 5, they are eligible for the award of a Diploma of Higher Education (DipHE).
- c) If a student fails to achieve 120 credits at Level 6 but gains 80, they may be eligible for an Ordinary Degree.
