

MSc INTERNATIONAL SHIPPING

Join a programme that combines over 30 years of international industry experience with a strong focus on commercial aspects of shipping, logistics and ports. You will build industry connections through our visiting speakers programme and stand out to employers with a qualification accredited by the Chartered Institute of Logistics and Transport (CILT) and recognised by the Institute of Chartered Shipbrokers (ICS) and The Nautical Institute. You will study our programme in 'Britain's Ocean City', so you'll make the most of the University of Plymouth's location and maritime heritage.

PROGRAMME OVERVIEW

The MSc International Shipping programme caters to the commercial needs of the specialist segments of the maritime industry. Our programme reflects a demand for professionals with knowledge, technical capacity and skills to slot into senior management positions in various industries.

Our modules are carefully designed and delivered by a team of international staff with strong expertise in their respective areas. From this you will draw on a unique blend of academic excellence and industry liaison experience. This provides an excellent learning opportunity to enhance the professional competence of individuals, who are already experienced and who wish to build on that experience through a structured programme of study.

CAREER OPPORTUNITIES

Our global graduates are in high demand and tend to take up careers with leading ship management or ship consultancy firms. Many often work as operations managers in various ports, cargo and ship-brokers, cargo charterers and cargo traders.

As current students, our careers and employability service are available to guide you whilst you transition from postgraduate study to employment.
