

Subtheme descriptions

Subtheme: “Society, Resilience and Environmental Sustainability”

The University of Plymouth has a strong embedded strategy for sustainability, incorporating social, economic and environmental principles that have been in place for nearly two decades. It seeks to deliver continuous improvement of its performance and to research solutions for global problems. In this section of our conference, we would like to learn more about research conducted about Environmental Sustainability as well as other food and agriculture related topics.

or just

In this section of our conference, we would like to learn more about research conducted about Environmental Sustainability as well as other food and agriculture related topics.

Subtheme: “Heritage, Humanities and Creative Arts”

This subtheme addresses research about heritage tourism, emotional response to aesthetics of music theatre as well as cultural diversity and multiculturalism.

Subtheme: “Education, Health and Wellbeing”

This subtheme addresses what inclusive education means and how to implement it in the school setting as well as the importance of students' self-confidence and mental wellbeing in terms of their social and academic aspects.

Subtheme: “Leadership and Business Innovation”

This subtheme will address the following questions:

- 1) What leadership/organisational practices fosters innovation?
- 2) Are diverse and inclusive organisations better able to drive innovation? To what extent?
