

HAVE YOU CONSIDERED A CAREER IN PODIATRY?

MAKE A DIFFERENCE WHEN IT MATTERS MOST.

Podiatrists specialise in the foot, ankle and leg. They lead on patient care through their whole journey, including prevention, diagnosis and treatment.

Their main aim is to improve mobility, independence and quality of life for their patients.

CHOOSE WHERE IN THE WORLD YOU WORK.

You can work in both the UK and abroad in countries such as Canada, New Zealand, Australia and many more!

Our programme features

inter-professional learning,

mirroring the NHS or private practice environments you might work in, which sets you up for your career right from the start.

SHAPE YOUR OWN CAREER.

Podiatry has a wide range of career options. As a qualified podiatrist you could work:

- in the NHS or private hospital as a clinician or consultant, or in the community as a locum
- run your own private practice
- as a specialist podiatric surgery practitioner
- wide range of non clinical roles such as academia or NHS management.

The possibilities open to you are endless!

You'll be joining a programme with

30 years' experience

SPECIALISE IN THE AREAS YOU WANT.

Podiatry is not just about feet.

- Work in many areas of clinical practice, such as nail surgery or rehabilitation and many more!
- Work with people with conditions such as diabetes, rheumatology or sports injuries.
- Specialise or go onto postgraduate study to develop professional, academic, or practical skills, such as train to be a podiatric surgeon or in injection therapy.

1,000 hours

are spent in clinical practice placements so you can experience the breath of podiatry first hand.

£6,000 funding

available per year which you do not need to pay back as part of the NHS Learning Support Fund.

95% of our graduates

were in a professional or managerial job 6 months after graduating. (DHLE, 2019)

High

employability rates within the profession

WORK IN THE NHS, PRIVATE SECTOR OR BOTH.

Upon qualification you could earn, as a band 5 podiatrist, between **£24,907** and **£30,615** within the NHS, which could rise to **£91,004** to **£104,927*** upon progression to a band 9 Consultant Podiatric Surgeon.

Here at Plymouth, we teach you vital business and leadership skills, which equip you with the tools for independent practice, to help you succeed.

Working in a private practice, you could earn between £20,000 and

£50,000**

Join our **BSc (Hons) Podiatry programme** with the University of Plymouth to kick-start your exciting career and to make a difference when it matters most.
