Acceptable documentation to support your financial guarantee

You will need to submit copies of documentation detailing any awards, scholarships or sponsorship that you will use to finance your fees. Where you are supplying funds yourself or from your family/friends or a private sponsor, evidence will be needed to guarantee that funds are available. All supporting documentation should be provided in written English. Where an original is not available in English, both the foreign language document and a translated copy are required. Please convert all non-UK currency into GB pounds (£) using the exchange rate of the day you complete the Financial Guarantee Form.

Scholarship or Award

An official communication is required from the award sponsor, confirming the specific amount of funding that will be provided and the duration it is to be provided for i.e. an entitlement/confirmation of award letter.

Self-Funded / Family Funded / Private Sponsor

If a grant or loan is expected from parents or other persons, you should include a letter from them, accepting responsibility for meeting the stated costs and confirming the specific amount of funding being provided and the duration it is to be provided for.

This letter should be accompanied by supporting evidence, from a professional adviser, such as a bank manager, accountant, or lawyer, showing that sufficient funds are available and vouching for the ability and willingness to pay of the person giving the undertaking.

In exceptional circumstances where a statement from a professional adviser cannot be obtained, copies of bank statements showing a consistent level of available funding may be accepted at the Universities discretion. If you are self-financing, you should arrange for similar statements and evidence to be sent. If an Equity Release Loan is being sought from your Mortgage lender then an agreement in principle detailing access to the minimum amount will also be accepted.
