*Charlie & Lola: Look After Your Planet – by Lauren Child*

To support your children's play we are asking your child to make anything they would like out of recyclable materials!

Suggestions: a vehicle, an animal, fish tank, puppet show, the solar system. Whatever your child is interested in!

The book for this week is 'Charlie & Lola: Look after your planet' by Lauren Child.

---

Why do we recycle?

What do you think goes into the recycling bin?

What do you think goes into the rubbish bin?

Talk me through your fabulous toy/object?

Where do they take the recycling after?

What day do they come and collect the recycling waste?

Who comes and collects the recycling?

What was this used for before it went in the recycling?

What are you going to make out of your recycling?

What recyclable materials are you going to use? What is this material? Plastic, Paper, Cardboard etc.

How many items are you using to make your amazing toy/object? Can you count them?

Do you know where paper comes from? If unsure, maybe find out together.
