University of Plymouth

Faculty of Arts, Humanities and Business
School of Art, Design and Architecture

Programme Specification

MA Publishing

Definitive Document Approved: 5/10/17
Amended by Minor Change: 4/12/19
1. **MA in Publishing**

   **Final award title(s)**
   Master of Arts in Publishing

   **Level 7 Intermediate award title(s)**
   Postgraduate Certificate in Publishing
   (Upon successful achievement of 60 M level credits)

   Postgraduate Diploma in Publishing
   (Upon successful achievement of 120 M level credits)

   **UCAS code**: N/A
   **HECoS code**: publishing / 100925

2. **Awarding Institution:** University of Plymouth
   **Teaching institution(s):** University of Plymouth

3. **Accrediting body(ies)**
   None

4. **Distinctive Features of the Programme and the Student Experience**
   All students taking this award can develop skills to enhance their employability within the creative industries and in particular within the Publishing sector. The course enables students to:

   - engage with contemporary digital technologies, academic debate and research.
   - gain a vocational qualification endorsed by the publishing sector.
   - benefit from a long-standing partnership with the University of Plymouth Press through digital and lithographically printed products or through Print-on-Demand outcomes.
   - engage with the regional publishing and arts sector through involvement with projects such as, Literature Works, the Arts Institute exhibition programme and /INK magazine.
   - join the list of our graduates who have had the valuable experience of work placements and have gone on to work for global publishers such as Oxford University Press, Cambridge University Press, Wiley, HarperCollins New York, Reed International, Macmillan Publishers, or companies such
as Imagine Publishing for magazines, bookazines, apps and websites.

- develop an in-depth understanding of the publishing industry in context, through practical workshops, to behind-the-scenes trips to leading printers such as TJ International and NBN International – book and ebook distributors.
- contribute to the design of the Association of Publishing Education stand at London Book Fair and attend a range of LBF seminars.
- gain work placements and experience a range of professionally equipped facilities, including a suite of Apple Mac computers, small- and large-scale digital printers, a letterpress workshop and digital multimedia editing suites to publish printed books, ebooks, magazines, bookazines, apps and websites.

Publishing is an expanding and developing (fast moving) industry that each year recruits a significant number of graduates. Very few publishers have an in-house training scheme; they also find it difficult to process large numbers of applications from graduates interested in Publishing as a career. Therefore a key feature of the MA Publishing course is to provide the industry with postgraduates possessing a practical awareness of Publishing both traditional and contemporary.

Few courses exist at this level with such a practical and forward thinking approach. This practicality enables students to appreciate the functions of the many trades and professions which contribute to contemporary Publishing. Students will acquire a positive attitude to the applications of new technology within the industry and its future markets. The course focuses on skills, training and an intellectual underpinning that will enhance the understanding of the task of management. Students are also introduced to the contribution made by the full range of professional working practices found alongside the industry such as distribution, its market point of sale and production trades.

Students are required to adopt an analytical and evaluative approach towards Publishing in order to have a greater understanding of the dynamic relationships between publisher and public.

There is common taught delivery, where students have the opportunity to collaborate and work in interdisciplinary teams across all specialisms, mirroring industry practice. Expertise of academic and technical staff will be drawn from:

1. The existing MA Publishing team.
2. The School of Art, Design and Architecture (Design Area):
   - Graphic Communication with Typography
   - Illustration
   - Digital Media Design
• Design Research
Students have the opportunity to share experiences, teaching and learning with students from every specialism of the award. Teaching and technical staff with specific knowledge and experience will contribute as needed:

1. Graphic Communication with Typography
2. Illustration
3. Publishing
4. Design Research
5. Digital Media Design
6. Photography
7. Marketing

The course has strong Industry and professional connections – a strong and established relationship with the Association for Publishing Education (APE), the Publishers Association (PA) and major publishing employers to ensure the relevance of study and a smooth path between education and graduate employment. The new Chief Executive of the PA (2016) has stated that the PA will be “increasing our cooperation with the institutions in the Association for Publishing Education to help ensure that both the courses and companies have a mutual understanding of each other’s needs and services, to ensure a future workforce which can keep British publishing a world-leading sector in the digital age.”

Through the Publishers Association there is access for students to major brands such as Macmillan, HarperCollins and Penguin Random House. Students also have the opportunity to work on live projects, fiction, non-fiction, consumer and academic, at the in-house University of Plymouth Press and the opportunity of work placements at the largest regional publisher, F+W Media.

Informed by the Publishing industry, the course provides an analogue and digital learning environment – the programme, assessments and set projects bring a broad range of academically rigorous, business related and creative activities comprising practical, digital/technical and industry skills required by the Publishing industry. Skills acquired will be relevant and attractive to a wide range of publishers regionally, nationally and internationally.

5. Relevant QAA Subject Benchmark

There is no specific QAA Benchmark for Publishing. The following Subject Benchmarking Statement is generic and taken from the UK Quality Code for Higher Education, Level 7.
Much of the study undertaken for master's degrees is at, or informed by, the forefront of an academic or professional discipline. Successful students show originality in the application of knowledge, and they understand how the boundaries of knowledge are advanced through research. They are able to deal with complex issues both systematically and creatively, and they show originality in tackling and solving problems. They have the qualities needed for employment in circumstances requiring sound judgement, personal responsibility and initiative in complex and unpredictable professional environments.

Master's degrees are awarded to students who have demonstrated:

- a systematic understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of their academic discipline, field of study or area of professional practice.
- a comprehensive understanding of techniques applicable to their own research or advanced scholarship.
- originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in the discipline.

Conceptual understanding that enables the student:

- to evaluate critically current research and advanced scholarship in the discipline.
- to evaluate methodologies and develop critiques of them and, where appropriate, to propose new hypotheses.

Typically, holders of the qualification will be able to:

- deal with complex issues both systematically and creatively, make sound judgements in the absence of complete data, and communicate their conclusions clearly to specialist and non-specialist audiences.
- demonstrate self-direction and originality in tackling and solving problems, and act autonomously in planning and implementing tasks at a professional or equivalent level.
- continue to advance their knowledge and understanding, and to develop new skills to a high level.

And holders will have the qualities and transferable skills necessary for employment requiring:

- the exercise of initiative and personal responsibility.
- decision-making in complex and unpredictable situations.
- the independent learning ability required for continuing professional development.
6. Programme Structure

The programme is made of four 30 M-Level credit modules and one 60 M-Level credit module.

The following shows the sequence and timing for full- and part-time mode.

Full-Time – One Year

YEAR 1 SEMESTER ONE

30 M Level credits
MAPU721
Creative Design and Analysis
In Publishing
Starts Week 10
Submit Week 25

YEAR 1 SEMESTER ONE
30 M Level credits
MAPU722
The International Business of Publishing: Print and Digital
Starts Week 11
Submit Week 25

YEAR 1 SEMESTER ONE AND SEMESTER TWO
30 M Level credits
MAPU718
Publishing Process
Starts Week 11
Submit Week 41

YEAR 1 SEMESTER ONE AND SEMESTER TWO
30 M Level credits
MAPU723
Employability, Networking and Industry Placement
Starts Week 11
Submit Week 39

YEAR 1 SEMESTER TWO
60 M Level credits
Successfully completing the first two 30 M-level credit modules (MAPU 721, 722) achieves a Post Graduate Certificate, successfully completing the first four 30 M-level credit modules (MAPU 721, 722, 718, 723 and 724) achieves a Post Graduate Diploma. The Dissertation/Project (MAPU 724) completes a Masters award.
Part Time – Two Years

YEAR 1 SEMESTER ONE

30 M Level credits
MAPU721
Creative Design and Analysis
In Publishing
Starts Week 10
Submit Week 25

YEAR 1 SEMESTER ONE
30 M Level credits
MAPU722
The International Business of Publishing: Print and Digital
Starts Week 11
Submit Week 25

YEAR 1 SEMESTER ONE AND SEMESTER TWO
30 M Level credits
MAPU718
Publishing Process
Starts Week 11
Submit Week 41

Total 90 M Level credits.

YEAR 2 SEMESTER ONE AND SEMESTER TWO

30 M Level credits
MAPU723
Employability, Networking and Industry Placement
Starts Week 11
Submit Week 39

YEAR 2 SEMESTER TWO
60 M Level credits
MAPU724
Masters Publishing Dissertation or Masters Project Report
Starts Week 25
Submit September
Total 90 M Level credits.
7. **Programme Aims**

*The programme is intended to enable and encourage students to:*

1. investigate and develop a focus for their specialism of Publishing study and practice by developing knowledge, competence and confidence through the evaluation and critical analysis of contemporary Publishing in relation to changing technologies and cultural contexts.

2. achieve and demonstrate a deep insight and understanding of an area informed by or at the forefront of Publishing practice through research, critical analysis, discussion, project development and realisation.

3. engage with a framework of sustained national and international academic debate to develop and demonstrate, a deep understanding of theories, practices and knowledge both relating to existing and/or new Publishing technologies, considering notions of ‘audience’ and the implications of new modes of distribution.

4. develop the requisite professional and postgraduate level research, presentation, negotiating and technical skills to work effectively in a professional, business environment and to initiate, coordinate and manage the creation and production of published material, whilst understanding the techniques and practices in and surrounding the Publishing industry plus the relationship between them.

5. effectively focus, position and develop their study and practice to achieve a qualification which is appropriate to, and endorsed by, the Publishing industry; which can enable them to maximise their career opportunities and prospects within their chosen field in the Publishing industry or if appropriate establish a direction for further academic research to MPhil/PhD.

8. **Programme Intended Learning Outcomes**

*Graduates from this programme will be able to:*

1. Identify specific or cross-disciplinary Publishing contexts, technologies, practices, outputs, ideas and objectives that are at, or informed by the forefront of Publishing practice and theory, both nationally and internationally.

2. Develop and demonstrate a deep insight, understanding and knowledge of the identified contexts, technologies, practices, outputs, ideas and objectives through appropriate in-depth modes of research, analysis, critical evaluation and synthesis.
3. Synthesise and distil the understanding and knowledge gained from Publishing research that relates rationally and effectively to the contexts, technologies, practices, outputs, ideas and objectives.

4. Develop and demonstrate professional and effective application and synthesis of relevant technical knowledge and skills.

5. Develop and demonstrate the ability to research, investigate, analyse, contextualise and critically evaluate historical and emerging Publishing theories, practices, contexts and outputs through the synthesis of a substantial piece of Publishing research.

8.1. Knowledge and understanding

On successful completion graduates should have developed:

1) a range of Publishing attributes including precise written and oral communication, editorial processes, practice-based concepts and terminology and an understanding of their own creative processes through engagement with a variety of output
2) a contextual understanding of Publishing history, theory, genres, creativity and authorship, for various forms of publishable output
3) the relationship between content, whether text or image based, and the creative process, methods of marketing, sales, production and distribution, the role of technology, copyright law, and the impact of published material on culture and society.

8.2. Cognitive and intellectual skills

On successful completion graduates should have developed:

1) a suite of skills, including critical thinking, analysis, evaluation, synthesis and the implementation of these in the context of their study
2) the ability to identify appropriate areas to research from a range of material and to formulate and present independent conclusions and well-argued, persuasive academic work
3) Cultural and social awareness, gained from both academic and non-academic sources, and the ability to critically consider challenging and controversial themes.
8.3. Key and transferable skills

On successful completion graduates should have developed the ability to:

1) be reflexive about their learning, while comprehending their own aspirations, ambitions and intentions
2) work collaboratively in researching, writing and presenting in a variety of media, indicating self-management, with a good level of organisation, oral and written communication
3) make use of a cross-section of resources, whether printed or digital.

8.4. Employment related skills

On successful completion graduates should have developed:

1) a professional approach to employability and employment, coupled with self-presentation material and an understanding of the ability to adapt to different demands and tasks, while being aware of sensitivity to different cultural contexts.
2) a readiness to communicate both their own ideas as well as the concepts of others, while considering solutions.
3) an awareness of the international reach and breadth of Publishing and related industries.

8.5. Practical skills

On successful completion graduates should have developed:

1) the ability to understand and use a variety of technology and industry specific software and hardware
2) presentation skills including self-presentation and the presentation of written work, the editing of their own work and editing the work of others and/or the sourcing, selection and editing of images, with rigour and scrutiny
3) active listening, close reading and bibliographic skills.

9. Admissions Criteria, including APCL, APEL and DAS arrangements

Entry requirements and admissions criteria
Students will normally need a 2.1 honours degree or above or equivalent in a relevant subject, however candidates with lower grades will be considered on their individual merits.
Applications will be considered by the Programme Leader and where appropriate in conjunction with the relevant Strand Coordinator.

**Accredited Prior Credited Learning & Accredited Prior Experiential Learning**

Students will normally need a 2.1 honours degree or above or equivalent in a subject relevant to their specialism, however candidates with lower grades will be considered on their individual merits.

Accredited Prior Credited Learning (APCL), i.e. credits achieved from previous study at another institution will also be assessed and acted on in accordance with University/Faculty guidelines and/or rights of progression onto the programme. For example the successful completion of an appropriate Plymouth Devon International College pathway/qualification will also be assessed and acted on in accordance with University/Faculty guidelines and/or rights of progression onto the programme.

Accredited Prior Experiential Learning (APEL), such as appropriate professional experience and prior experiential learning will be assessed on an individual basis and in accordance with University/Faculty guidelines.

**International Baccalaureate**

English accepted within Higher Level = 4+ (A1) or 5 (A2/B) Standard Level = 5+ (A1) or 6 (A2/B)

If overseas and not studying English within IB – MUST have IELTS: 6.5 overall with 5.5 in each element

Where appropriate the programme will actively engage in the Faculty widening participation strategy, for example by recruiting students with appropriate professional experience and prior experiential learning. However the Widening Participation strategy is largely aimed at recruiting students to undergraduate level from backgrounds that have little or no experience or contact with higher education.

**200 - 500 word outline of areas of potential interest, study and career aspirations**

An outline of 200-500 words indicating areas of potential interest and study should also be submitted with the student’s application. The outline proposal should indicate their ambitions, areas of interest and avenues of potential study and exploration.

10. **Progression criteria for Final and Intermediate Awards**

Progression from PDIC Pre Masters in Art and Media (3rd Year Degree Equivalent (PDIC Postgraduate Stage 1/NQF Level 6). Students will be entitled to progress to the MA Publishing (core award) upon successful completion of and to an agreed level a
Pre Masters in Art and Media programme delivered by Plymouth and Devon International College.

Upon successful achievement of 60 level 7 credits, students can achieve a Postgraduate Certificate (PGCert) award in Publishing.

Note: this PG Cert is not a professional qualification; but allows acknowledgement of achievements less than a diploma.

Upon successful achievement of 120 level 7 credits, students can achieve a Postgraduate Diploma (PGDip) award in Publishing.

Upon successful achievement of 180 level 7 credits, students can achieve an MA award.

To achieve a ‘Pass’ award, students must achieve an average of between 50-59% on aggregate and, additionally, in the case of MA awards, for the Dissertation module.

To achieve an award with ‘Merit’, students must achieve an average of between 60-69% on aggregate and, additionally, in the case of MA awards, for the Dissertation module. To achieve an award with ‘Distinction’, students must achieve an average of between 70%+ on aggregate and, additionally, in the case of MA awards, for the Dissertation module.

11. Exceptions to Regulations

Rationale Start Date MAPU718 and MAPU723

MAPU721 and MAPU722 are assessed at the end of Semester 1. MAPU718 Publishing Process and MAPU723 Employability, Networking and Industry Placement are assessed at the end of Semester 2. However, both MAPU718 and MAPU723 begin, briefed and outlined with preliminary instruction delivered during Semester 1, this is because:

1) MAPU718 Publishing Process – requires the acquisition and negotiation of publishable content so that the module can begin at the beginning of Semester 2 with all materials in position.

2) MAPU723 Employability, Networking and Industry Placement – requires a lead-in time for a placement with a publishing house. Many of the lead publishing brands have an established protocol with a lead in time of approximately 3 months to
establish the nature of placement/collaboration. Three months is not the start time and will normally fall closer to Easter.

The delivery dates are staggered to reflect the module task and the time required.

Rationale has been approved.

12. Transitional Arrangements

N/A

Mapping and Appendices:

See mapping template below for the following:

13. Skills against Modules Mapping

The requirements for achieving awards are set out below.

<table>
