The Academic Engagement team work in partnership with Faculties, Schools and Programme teams to deliver information services in support of teaching and learning. Information Specialists work at both strategic and operational level, reflecting the importance of information as one of the University's most crucial assets and information literacy as a key attribute for employability.

Selection of material for library collections (both physical and electronic), facilitating the use of information management tools, supporting the development of information literacy skills, and supporting the management of corporate information and University records.
