

STUDENT PLACEMENT

Somerset's Partnerships `s Mission and Vision

Our Mission is: *Caring for you in the heart of the community.*

The Vision for Somerset Partnership is : *To be the leading provider of community-based health and social care.*

Our aim is to deliver care that is personal to the individual as close as possible to where they live – in local communities and in patients' own homes – and for our staff who deliver those services to be caring and compassionate.

Students

Here at Somerset Partnership we offer a wide range of practice placements to nursing and AHPs students alike.

Student placements occur in a variety of both clinical and community settings. This enables students to gain a diverse and broad range of placement experience.

Our links with U.W.E, Plymouth and Bournemouth Universities are strengthened by close working ties between the Academic Leads and regular Placement Development meetings.

New students to the Trust will attend an induction and have access to integrated student learning events and training opportunities.

Practice Placement Team

The Practice Placement Team is the dedicated team to support all students and mentors irrespective of whichever pre registration programme they are studying.

Student Testimonies

"I enjoyed seeing a different side to nursing as I have been mostly based within the hospital setting. The team were all very friendly, supportive and willing to help with my learning"

Emma - Wellington District Nursing Team.

"I enjoyed every single second of my placement because of the people I worked with. Everyone was so willing to help me."

Elizabeth - Frome Community Hospital.

"I enjoyed working with a great team from nurses, HCAs, OTs, doctors and other professionals who were on the whole very friendly, supportive and encouraging. My mentor was also so friendly, helpful and supportive. I could not ask to work with a better team. They were lovely"

Caedmon - Rowan Ward Yeovil
