

Presentation plan

Who I am and where I work

What I/we do in the woods (project background)

- Examples of activities
- When we go (whole/half day - frequency)
- Who comes out with us (participant group)

What was the focus of the research/what was the research question?

How did I/we collect data? (research methods)

- examples of method (keep any people anonymous)

How did we analyse the data collected/what sort of thing should it tell us?

- How we analysed data - wellbeing indicators

Research findings

- examples of quotes/video etc. (keep any people anonymous)
- Top five most significant results

Research summary/conclusion

- my reflections on research
- my actions as a result of research findings
- how research will affect my work/be carried forwards
- what it means to the audience (what might they learn from it)
