PLYMOUTH UNIVERSITY

SELF-GUIDED CAMPUS TOUR
WELCOME TO PLYMOUTH UNIVERSITY

With approximately 28,000 students, we are the largest university in the South West and attract students from all over the world. Plymouth started out as a School of Navigation in 1862 and today is a leading university with a reputation for excellence and a high-quality student experience. Our modern and buzzing campus is located right in the heart of the city centre meaning that all the attractions of city life are close to hand. We also enjoy fantastic leisure facilities, easy access to beaches and a natural landscape of moors and countryside.

HOW TO USE THIS GUIDE

This campus tour will take about an hour to complete and will encompass the main points of interest, including the specialist facilities available at Plymouth University. Please use this guide in conjunction with the fold-out campus map on the inside back cover. Follow the directions marked with a green triangle to navigate around the campus or if you prefer, choose your own route. You are welcome to go into any of the buildings that are open or use any of the catering outlets. However, access to the labs, studios and workshops are restricted for health and safety reasons. As we continue to invest heavily in our campus and improve our buildings and resources, please be aware of any building work that you may come across and adhere to any warning notices.

START Start your tour standing outside the Roland Levinsky Building (campus side).

Roland Levinsky Building  Map Ref: E6

This award-winning building houses the Faculty of Arts and Humanities and Peninsula Arts – the University’s arts and culture organisation. It is complete with lecture theatres, specialist art and design studios, a cinema, a public art gallery, a 255-seat theatre for performances and a cafe providing views over the city.

The Peninsula Arts Gallery houses exhibitions from artists all year round. Most notably it hosted, the British Art Show 7, which showcased the best of current British contemporary art. Also in the Roland Levinsky Building is the Information Gateway – the University’s one stop information and advice point. This is located on the ground floor where you will find:

- The Careers & Employability Hub - this is where our students can get help with writing a CV and covering letter, information about part-time work or becoming a student ambassador, interview techniques, events and workshops to develop employability skills, support with completing the Plymouth Award, placements, graduate opportunities and careers guidance appointments.
- The International Student Advice Team – the service provides specialist support and guidance for our international students to help them fulfil their academic potential and maximise their time in the UK.
- The Learning Gateway – is a one-stop shop for support services with Plymouth University, incorporating the following services which offer help, advice and support to students and staff:
  - Care Leavers support
  - Counselling and personal development
  - Disability Assist
  - Learning Development and Peer Assisted Learning Scheme (PALS)
  - Mental Health support
  - Multi-Faith Chaplaincy
  - SUM:UP mathematical support
Link Building  Map ref: F5  
The Link Building (accessible via the Davy Building) houses teaching space, offices and laboratories for our Dietetics and Psychology students. Our Enterprise Solutions team, which offers support to local businesses, is also based here.

> Turn around towards the Link Building.

Scott Building  Map ref: D6  
A listed building which was once a grammar school, the Scott Building survived the Blitz during World War II. It is named after the Plymouth-born explorer Captain Robert Falcon Scott (1868–1912), who led two pioneering expeditions of scientific exploration to the then unknown Antarctic.

The Scott Building provides the focus for film, video photography and sound workshops. As well as teaching space, Scott houses state-of-the-art light and dark rooms, professional photography studios, TV and sound recording studios, gallery space and printing, and ceramic and metal-working facilities. Plymouth University is one of only three institutions in the country with access to traditional metal and wooden type letterpress facilities. There is also a lab fitted with high-spec Apple computers which is open until late every day. Students can also rent media equipment such as video cameras from here.

> Opposite the Scott Building and on your right is the Smeaton Building.

Smeaton Building  Map ref: D5  
The building is named after John Smeaton (1724–1792), who made his name as a civil engineer. He is often regarded as the ‘father of civil engineering’ responsible for the design of bridges, canals, harbours and lighthouses. He was also a highly capable mechanical engineer and an eminent physicist. He had the task of rebuilding Plymouth’s Eddystone Lighthouse in 1756. Smeaton’s name is synonymous with the iconic red and white lighthouse on Plymouth Hoe known as ‘Smeaton’s Tower’.

Smeaton accommodates some of the Faculty of Science and Engineering; and houses Faculty Administration, along with a diverse range of engineering laboratories for mechanical, electronic and computer engineering. These include laboratories supporting electronic, communications, networking and robotic engineering, through mechanical computer aided design and simulation (CAD &...
Continue to the end of the road, stop and look to your left and over the road; this is Discovery Heights.

**Discovery Heights Student Flats** Map ref: C6
This is one of a number of private halls (not university managed) available in Plymouth. For viewings or further information, please ask at the Enquiries Office, situated just across the road to the right in the walkway or visit the UNITE website at www.unite-students.com. There are also new halls which are currently under construction; these will also be privately managed accommodation.

**Reynolds Building** Map ref: C5
The building was originally a bank and is named after the famous artist Joshua Reynolds (1723–1792), who was born in Plympton, an area on the outskirts of Plymouth. The building houses academic staff.

On the opposite side of the road on the south side of the Babbage Building, you will see the Marine Building.

**The Marine Building** Map ref: C5
The £19 million Marine Building houses some of the most advanced testing facilities including deep-water wave tanks, a ship simulator, laboratories and accommodation for academic staff researching Marine Renewable Energy devices, coastal engineering and the Marine Innovation Centre (MARIC). This facility is helping to further develop the University’s world-class reputation for marine and maritime education and research. In 2011, the University was awarded a prestigious Queen’s Anniversary Prize for Higher and Further Education recognising 150 years of research, teaching and training in this area.

A view of the COAST laboratory’s facilities is available via a viewing window in the building’s foyer.

Turn to your right and walk up the road (James Street), with the Smeaton Building on your right. The next building on your right is the Brunel Laboratories.

**Brunel Laboratories** Map ref: D4
The labs are named after Isambard Kingdom Brunel (1806–1859), a civil and structural engineer who was best known for the creation of the Great Western Railway, a series of famous steamships and numerous important bridges and tunnels including the Royal Albert railway bridge that links Devon with Cornwall.

Brunel Laboratories are used by the School of Marine Science and Engineering and the School of Computing, Electronics and Mathematics. The building houses a manufacturing workshop, a composites materials lab, clean rooms, a heavy structures and
The building is named after Charles Babbage (1791–1871), the English mathematician, philosopher, and mechanical engineer who originated the idea of a programmable computer.

This building contains mainly lecture theatres and teaching rooms and there are numerous computer labs with PCs and Apple computers. The Babbage Building also houses the largest computing open access area on campus, complete with a support desk for students who have computer-related queries.

All students at Plymouth University have access to their own computer account including email, hard drive space and the Student Portal – an information portal containing news, lecture notes and community pages. All of the computers at the University are networked and grouped together in open access areas and are free to use. Students can also access their account via the internet.

As well as serving great coffee, the Writing Café on the 4th floor is a welcoming and purposeful space where you can explore techniques and strategies to improve your writing.

Continue up the same road and to your right is the Rolle Building.

Please continue to the corner of James Street where to your left is Portland Villas.

Portland Villas Map ref: C3

Currently these buildings house the Office of the Vice-Chancellor, academic and administrative staff as well as school offices for some Faculties. Plymouth University International College (PUIC), part of the Navitas Group – a global provider of education services, is also situated here. PUIC complements the University’s existing course portfolio by offering overseas students a range of specially-tailored pre-university courses. These courses prepare students specifically for direct entry to a wide choice of Plymouth University courses at both undergraduate and postgraduate level.

Behind Portland Villas is Hepworth House, named after the sculptor Dame Barbara Hepworth (1903–1975). Located in this building is the Registry and Exams and Awards Office.

Continue to walk further up James Street past the James Street Vault pub. To your right is Kirkby Place and Kirkby Terrace.
Multi-Faith Chaplaincy, Kirkby Place Map ref: D2
The Multi-Faith Chaplaincy is here for staff and students on campus, whether you have a faith, are searching for faith, or just want to meet people. Open 10:00 – 16:00 every weekday during term time, they offer free tea and coffee in a comfortable lounge with wireless access to the university network. There is a quiet room for prayer, reflection, meditation or just a place to think. There is also an Islamic Prayer room on the premises. Throughout the year they put on a variety of events from social evenings and walks to lectures of faith issues and courses introducing Christianity. For more information about the chaplaincy or to find out about their events please visit www.plymouth.ac.uk/chaplaincy or email chaplaincy@plymouth.ac.uk

Kirkby Place Map ref: E2
This area houses non-teaching offices, along with postal services and the Design and Print Centre, which provides design, print, photography and copier services to the University. Behind you is the James Street Vaults – the only pub on campus and popular with students and staff alike!

Turn around and go back down the hill, then turn left to face the Rolle Building.

Rolle Building Map ref: D3
The building takes its name from the Rolle family, who were associated with the then Faculty of Education’s former home in Exmouth, in the early 1950s. It was the Rolle family that attracted wealth to the East Devon seaside town by developing the docks and shipbuilding. Lord Rolle had opulent mansions and villas built, encouraging the affluent retired to make Exmouth their home.

The Rolle Building is home to the Faculty of Health and Human Sciences. It also accommodates specialist teaching space for our education and music courses, the Graduate School, administrative space and laboratories.

Walk through the underpass next to the Rolle Building into the courtyard area and look to your left, this is Francis Drake Hall. Building works are due to take place in the underpass, if this is the case please use the walkway between the Rolle and Brunel Buildings.

Francis Drake Hall Map ref: E3
Francis Drake provides a variety of en suite rooms and some studio flats. The on-site reception looks after the residents of Francis Drake and Mary Newman halls. A ‘pavilion’ style 80 seat café is located in front of the hall.

Continue forward, walk past the café and turn left to cross the open ground. Carry on up until you can see the Nancy Astor Building on the right.

To your left you will see the Institute for Sustainability Solutions Research and Portland Mews.
Portland Mews Map ref: F2
This is currently where our Student Counselling service is based. Although coming to university is usually an exciting and rewarding experience, some students may encounter problems for which they need help and support beyond that offered by tutors, friends and family. The Student Counselling service offers free help to students to work through their difficulty, understand themselves better and find ways of managing their situation.

Continue forward to the Nancy Astor Building.

Nancy Astor Building Map ref: G2
The building is named after Nancy Astor (1879–1964), who was the first woman to serve as a member of the House of Commons. She was MP of Plymouth Sutton ward between 1919–1945.

The Nancy Astor Building is a £10 million development which encompasses a medical training facility, including a simulated hospital ward and clinical skills laboratories for the Faculty of Health and Human Sciences. The building also houses a café, a sports complex (details below) and offices.

Behind Nancy Astor is Drakes Gardens and the bordering reservoir.

Drake’s Place Reservoir and Gardens Map ref: G2/G3
The historic gardens and reservoir of Drake’s Place have recently been restored thanks to a £1.4 million project funded by the University, the Heritage Lottery Fund and the Big Lottery Fund. The work included the restoration of the fountains in the reservoir, the cascade and the watch house, as well as improved seating and lighting, and the creation of a new access point from North Hill. The gardens were also replanted based upon their original 1910 design. The work took six months and the community space was unveiled during Universities Week in 2014.

Turn to the left and walk alongside Freshlings Nursery and the Sports Complex.

Nancy Astor Sports Complex Map ref: G2
The on-campus Nancy Astor Sports Complex provides an ideal opportunity for students to take part in a variety of activities ranging from five-a-side football to yoga. The 50-station state-of-the-art fitness suite includes a comprehensive range of cardiovascular and weight resistance equipment and is open seven days a week. In addition, there is a multipurpose sports hall, three squash courts and a fitness studio. Sports and activities such as aerobics, basketball, badminton, dance, squash, volleyball and Zumba are accommodated within the sports complex.

Students also have exclusive, timed-use of the indoor climbing zone and the Olympic standard pool in the new £46.5 million Plymouth Life Centre, one of the country’s leading centres of sporting excellence. The Life Centre is located approximately one mile from campus.

Combined with our other facilities located in and around the city, including the Mount Batten Watersports Centre, Plymouth Albion rugby...
ground, Staddiscombe sports pitches and our proximity to Dartmoor and the sea, there is plenty for students to do to keep active!

**Freshlings Nursery** Map ref: F2

Freshlings Nursery provides childcare for staff and students of Plymouth University. It is open 8:15 –17:45, Monday to Friday, for 49 weeks of the year and are registered to take up to 83 children 0-5 years of age. The setting is divided into four nursery rooms; baby, toddler, tweenie and pre-school and they aim to work with parents to support the learning and development of their child. Freshlings Nursery was successfully inspected by Ofsted in April 2016 and is rated as Good. If you wish to be placed on the waiting list, please contact us on freshlingsnursery@plymouth.ac.uk or 01752 588550 to request a booking form.

**University Wellbeing Centre** Map ref: F1

The on-campus medical centre has recently undergone a multi-million pound extension and refit. The new Wellbeing Centre hosts a number of wellbeing activities and workshops including various counselling options, massage therapy and meditation sessions, as well as the University Medical Centre.

**Mary Newman Hall** Map ref: F3

This hall has various sizes of en suite rooms arranged in a cluster flat design. The hall takes its name from Mary Newman who married Sir Francis Drake on 4 July 1569. Drake was knighted in 1581 and was elected Mayor of Plymouth in the same year. Mary became Lady Drake and Mayoress.

The Residence Life office also provides the support and advice many students need when moving out of the parental home for the first time. Please feel free to ask any questions to staff within the office. Or visit www.plymouth.ac.uk/accommodation for more information.
Exit the Mary Newman Hall and continue down the hill. The domed building in front of you is the Immersive Vision Theatre and to the right is the Fitzroy Building.

**Immersive Vision Theatre (IVT)** Map ref: F4
The Immersive Vision Theatre is a unique facility used for a range of learning, entertainment and research activities, including transdisciplinary teaching, performances and data visualisation. They can fly you to the edge of the observable Universe, across microscopic nano-landscapes, or immerse you in interactive data-scapes. At the centre of an international network of immersive and virtual reality research the IVT also runs a public programme of activity for schools, colleges and community groups and tailor-made content to specific learning and curricula requirements. More information can be found here: http://i-dat.org/ivt/

**Fitzroy Building** Map ref: E3
The building is named after Admiral Robert FitzRoy (1805-1865), the captain of HMS Beagle, the ship that carried Charles Darwin on his famous voyage of discovery from Plymouth in 1831. The Fitzroy Building is home to Geology academics, research fellows, expert technical staff and PhD students. Purpose-built laboratories are well-equipped and include state-of-the-art computing facilities with industry standard software programmes for analysis of spatial data and structural geology problems. Fieldwork is at the heart of our Earth Sciences degrees and there are residential and day fieldtrips to spectacular locations in the UK and abroad such as Death Valley, Morocco, Sicily and Cyprus. As well as delivering excellence in teaching, staff engage in internationally recognised cutting-edge research and outreach, including flagship TV programming.

Continue along the side of the Immersive Vision Theatre with the Fitzroy Building to your right. Go straight on, down the steps in front of you, across the car park, down another set of steps and continue forward until you reach the Charles Seale-Hayne Library on your right.

**Charles Seale-Hayne Library** Map ref: E4
The library is named after Charles Seale-Hayne, the renowned Devon businessman and politician whose estate founded Seale-Hayne College, part of the University from 1998–2002.

The building is open 24 hours a day, 365 days a year and has computing and printing facilities, binding and document presentation equipment and video editing equipment for loan. Experienced and friendly staff are on hand to help and advise our students.

The library is a modern building with a variety of study areas including individual study rooms, quiet-study desks and group-study areas. Dedicated terminals are available to search for, request and reserve books via Primo – the library’s online catalogue, which allows access to thousands of online journals. The SUM-UP drop-in centre is where students can get extra help with maths and statistics. There is also a café, vending machines and casual seating areas.
Students’ Union (UPSU)  Map ref: F5

UPSU is the hub of student life at Plymouth University and popular both by day and by night. It has recently undergone a massive refurbishment and inside is separated into distinct areas to cater for different needs. There are shops, bars, nightclub areas, eateries, coffee shops and pool tables.

Just inside the south entrance on the left is The Hive. This is the central point of the Students’ Union. Open throughout the day you will be able to find information about Executive Officers, volunteering, sports clubs, societies and activities. It houses University-networked computers, sofas and other seating to relax and catch up with friends.

The Hive overlooks the Eco Garden, which was a gift to the students from the University’s Centre for Sustainable Futures. It has been used for live acts, the annual Summer Ball which attracts over 4,000 students and top celebrity guests such as Muse, Ben Howard, Pro Green, Roots Manuva, DJ Fresh and many more.

The most important role of the Students’ Union is to represent student views via Elected Officers and Course Reps, School Reps and forums. UPSU offers a free, independent, confidential, impartial advice service, available to students regarding any aspect of their life. Our advisors are available for students to drop in and see. The Advice Centre is located on the first floor of the Students’ Union next door to Loafers directly opposite the Library entrance.

UPSU also run all of the sports and societies at the University, of which there are over 140! They include team sports such as football, to societies such as the Musical Theatre Group and less well known activities such as Octopush (underwater polo).

You can purchase an NUS Extra card from the SU, saving you money through the year in a lot of high-street and online shops. The average student can save over £500 a year.

Retrace your steps back to the main entrance of the Students’ Union. Go straight on and then turn left, walk through the underpass (which link the Smeaton and Link Buildings) and down the steps in front of you. Turn left so that the Roland Levinsky Building is on your right and go straight ahead towards the road (North Hill). The Link Building and The House will be on your left.

The House  Map Ref: F5

The House is the University’s performing arts centre, which opened in November 2014 at a cost of around £7 million. Both a specialist teaching and learning environment and a touring venue for the city, The House has facilities to rival the best university theatre provision in the UK. Versatile and fully accessible, it has a 200-capacity, sprung-floor theatre, studio spaces and advanced technology,
including a high-tension wire grid, one of very few in the UK, enabling wheelchair access for students with disabilities to develop expertise in technical theatre including lighting, sound and scenography. It is also a research centre and home to the Interdisciplinary Centre for Computer Music Research.

**Walk up North Hill with the City Museum and Art Gallery to your right on the opposite side of the road. Turn left at the North Hill entrance to the campus. The Main Hall and the Davy Building are on your left.**

**Main Hall** Map ref: G5
This is used for exams, lectures, exhibitions and other events throughout the year. The student Musical Theatre Group put on a performance here every year, which previously included Thoroughly Modern Millie. The Students’ Union also uses the Main Hall for gigs including the award-winning folk star Seth Lakeman, who has strong links to the University as one of our honorary alumni.

**Davy Building** Map ref: F5
The building is named after Sir Humphrey Davy (1778–1829), who was a famous late 18th-century scientist from Cornwall. He is popularly known for inventing the miner’s safety lamp.

This is home to the **Faculty of Science and Engineering’s** teaching and research laboratories for chemistry, biological and biomedical sciences. Many of the labs have recently undergone refurbishment and support specialist facilities for example, microbiology, spectroscopy and molecular biology. LabPLUS, an experimental learning facility is located on floor 7. This provides Science and Engineering students with self-directed learning resources and is also a centre for Science, Technology, Engineering and Maths (STEM) outreach activities.

**To your right is the Portland Square Building and Sherwell Centre.**

**Portland Square Building** Map ref: F3
The biggest civilian World War II disaster in Plymouth, after which Portland Square is named, has been commemorated by a memorial sculpture on the west side of the building. The sculpture was unveiled in April 2009 and is a lasting memorial to the men, women and children who perished in the April 1941 bombing of the air raid shelter located on what is now the University campus. The sculpture is made of Portland Stone by South West artist Frances May Favata.

This building accommodates the **Plymouth University Peninsula Schools of Medicine and Dentistry** and some schools of the **Faculty of Science and Engineering**. It comprises of three atrias, giving the building a modern and bright feel. Portland Square houses three lecture theatres with video conferencing facilities, numerous classrooms and a café. Peninsula Arts, the University’s arts and culture organisation, also displays works in the Cube3 and community gallery in the main atria.
The Sherwell Centre Map ref: G4
A former church, this building has been tastefully restored and houses two large lecture theatres with a 490 total seating capacity and provides exhibition space on the mezzanine floor and in the foyer. The upper lecture theatre has a grand piano used for concerts throughout the year, see www.peninsula-arts.co.uk for further details.

Turn back and look towards North Hill, facing away from Portland Square.

North Hill Map ref: H3
This is a vibrant student area with a number of shops, restaurants and bars within walking distance of the halls of residence and the campus.

Student Village Map ref: H5
Looking past the crossing you will be able to see a red-brick building. This is Gilwell Hall situated at the start of the Student Village. Other University-managed halls in this area are Robbins, Pilgrim and Radnor. The Student Village has its own reception for these hall residents and this is also a base for some of our hall teams and maintenance staff.

END OF YOUR MAIN TOUR
Thank you for taking the time to look around our campus; we hope you enjoyed your visit. If you are considering studying with the Plymouth Business School or would like to view additional University managed halls, you can take the extended campus tour. This extended tour will take approximately a further 15 minutes.

Cross North Hill and walk towards Gilwell Hall turning right onto Gibbon Street. Make your way to the entrance of the Robbins Conference Centre and Halls of Residence, which is on your right by the sign.

Robbins Conference Centre and Robbins Hall Map ref: H6
The Robbins Building is home to the Robbins Conference Centre which houses a 250-seat lecture theatre, flexi-space seminar rooms for teaching, and is used throughout the year for events and conferences.

Above the conference facility are a series of cluster flats with rooms comprising a mixture of en suite, standard, and interior rooms which are located at the top of blocks with windows in the sloping roof. The flats are for between four and eight residents with shared kitchen facilities.

Turn around so that your back is facing the Robbins Conference Centre. Across the road you will see the Centre for Eyecare Excellence.

Centre for Eyecare Excellence (CEE) Map Ref: I6
Representing a regional drive to bring optometry training to the South West through a state-of-the-art teaching facility for undergraduate and postgraduate optometrists, it is equipped with the latest instrumentation and staffed by fully qualified optometrists.
Cookworthy Building Map ref: J8

Cookworthy is the home of the Faculty of Business. It is a Devon-brick building that is named after the well-known 18th-century Quaker entrepreneur and chemist William Cookworthy (1705–1780), who among other things discovered china clay in Cornwall and made the first true English porcelain in his factory in Plymouth.

The building has a range of teaching rooms, extensive computing facilities – including its own Faculty of Business dedicated IT team. The Bloomberg Room also provides students with an insight into how the stock markets work, you will also find many open access areas like the student hub on level two providing students with open spaces for individual or group study. On level three you will also find the Faculty enrichment team, who work towards helping you to make the most of your time with us – from making new friends to learning new skills or gaining work experience, it’s all about the study!

Cookworthy also houses the University East Café where you can choose from a delicious range of local, sustainable and fresh drinks and snacks, keeping you going from breakfast right through to lunch.

END OF TOUR

To head back to the University, follow the way you came along Gibbon Street. Thank you for visiting us today, we hope to see you again soon!

OPEN DAYS

You may wish to visit us again for a more in-depth look and the chance to speak to academics and students alike. Spend the day with us at one of our open days and leave with answers to all of your questions about University life and our courses. Details can be found at www.plymouth.ac.uk/opendays
We also have specialist medicine and health training facilities/centres aligned closely to our partners in the NHS at Derriford Hospital (Plymouth) and Royal Cornwall Hospital (Treliske).

**JOHN BULL BUILDING**
The John Bull Building is the flagship headquarters for the Plymouth University Peninsula Schools of Medicine and Dentistry. The facility is located on the Plymouth Science Park, adjoining Plymouth’s Derriford Hospital, the region’s premier trauma centre and teaching hospital. The building has state-of-the-art facilities including a clinical skills resource centre, a life sciences resource centre, laboratory facilities, a large telematic lecture theatre, seminar rooms, conference facilities, an IT suite and offices.

**DENTAL EDUCATION FACILITY**
The Dental Education facility is also located on the Plymouth Science Park adjacent to the John Bull Building. This purpose-built facility opened in September 2011 and provides a progressive clinical space in which dental students can undertake clinical duties. The facility has 40 dental chairs, X-ray rooms, seminar rooms and teaching rooms, and offices.

**PENINSULA ALLIED HEALTH CENTRE (PAHC)**
This purpose-built centre is home to a number of the University’s health profession courses including dietetics, occupational therapy, paramedicine, physiotherapy and podiatry. The building has a lecture theatre, seminar rooms, computing facilities and some purpose-built facilities where students can practise techniques they will use in placement.

**KNOWLEDGE SPA, TRURO**
The Knowledge Spa is located in the grounds of the Royal Cornwall Hospital in Truro. The building’s facilities includes modern lecture and seminar rooms, an excellent clinical skills lab, research space, computer facilities, a large health-focused library as well as a business pre-incubation facility for local health-related companies.

Please note that visits to these teaching centres can only be made on official open days or by prior appointment.
DISCOVER MORE
If you would like to visit Plymouth University and meet our staff, then why not come along to one of our open days?
