PROFESSIONAL DEVELOPMENT WITH PLYMOUTH UNIVERSITY

COMMUNITY AND PRIMARY CARE
PROFESSIONAL DEVELOPMENT IN COMMUNITY AND PRIMARY CARE

Enhance your career and learning opportunities with our BSc (Hons) Professional Development in Community and Primary Care. This specialist pathway will give you a broad range of academic and practice related skills on which to build future studies. The teaching team includes academics, lecturer practitioners and expert practitioners who have a wealth of experience to promote teaching and learning informed by research and professional practice.

HIGHLIGHTS

- Being part of a dynamic and responsive sector that is central to future health service configurations.
- Opportunities to transform services and gain knowledge and appreciation of other professions and organisations who contribute to patient and/or client care.
- Involvement with patient representatives in delivery.
- Opportunities for inter-professional learning with others from community and primary care contexts.

PROGRAMME AIMS

To support you to:

- Become a critical thinking practitioner with a range of transferable skills who can effectively contribute to service enhancement in a community and primary care setting.
- Use the best available evidence, contemporary knowledge and high-level clinical decision-making skills to underpin interventions.
- Develop confidence, competence and emotional resilience.

MODULES

Core modules

- Integrated community and primary care in context
- Integrated community and primary care practice
- Understanding evidence to inform clinical decision making
- Additional core module for BSc (Hons) pathway – Independent study

Optional modules (not exhaustive)

- Clinical skills in community and primary care
- Contemporary issues in health and social care
- Leadership and innovation

CAREER OPPORTUNITIES

- Employment in a general practice context utilising advanced skills.
- Employment as a specialist practitioner in an integrated service.
