The BSc (Hons) Professional Development in Neonatal Care encompasses a range of academic and practice related skills. It is open to practitioners registered with the Nursing and Midwifery Council with experience of working within neonatal care. You will develop and utilise appropriate skills whilst promoting an environment conducive to the provision of high quality neonatal care for infants and their families.

**HIGHLIGHTS**

- An innovative approach for nurses to develop specialist and advanced knowledge of neonatal care.
- Assignments designed to translate knowledge and skills to clinical neonatal practice.
- Flexibly designed programme enabling you to ‘step on and step off’ over a five-year period.
- Graduate with an ordinary degree or continue your studies further and achieve an honours award.

**MODULES**

- Understanding evidence to inform clinical decision making
- Contemporary issues in the care of the newborn
- Intensive care for the neonate
- **Additional module for the BSc (Hons) pathway** – Independent study

**PROGRAMME AIMS**

To support you to:

- Become a challenging and critical thinking practitioner with a range of transferable skills who can effectively contribute to service enhancement in the neonatal setting.
- Use the best available evidence and contemporary knowledge to underpin nursing intervention.
- Develop the confidence, competence and emotional resilience to consistently exercise personal responsibility and professional accountability for decision making and the provision of high-quality safe care.

**CAREER OPPORTUNITIES**

- The opportunity to meet the nurses Qualified in Speciality (QIS) competencies.
- The potential to progress to an Advanced Neonatal Nurse Practitioners (ANNP) role secondment and a recognised ANNP masters training pathway.
