PROFESSIONAL DEVELOPMENT IN NURSING

Created with input from colleagues working in the health sector and the School of Nursing and Midwifery, the BSc (Hons) Professional Development in Nursing will build on your current experience and skills and enable you to earn a degree whilst gaining the confidence and expertise to enhance your professional nursing practice and move your career forward.

HIGHLIGHTS

- Practice-focused contemporary modules which can be completed in one academic year.
- Suitable for nurses from any field or practice area with modules which are designed to be flexible and allow you to choose your assignment focus.
- Graduate with a standard degree or continue your studies further and achieve an honours award.

MODULES

Core modules

- Understanding evidence to inform clinical decision making
- Clinical decision making in nursing practice
- Ethical and legal issues in healthcare practice
- Additional core module for the BSc (Hons) pathway – Independent study

Optional modules (not exhaustive)

- Advancing the management of long term conditions
- Leadership and innovation

PROGRAMME AIMS

To support you to:

- Gain the skills and knowledge to develop your professional nursing practice.
- Expand on your existing expertise by developing the critical thinking skills to enhance your future as a safe and reflective nurse, able to communicate the principles of effective practice and demonstrate a compassionate approach.
- Enhance your accountability, decision-making and analysis skills.

CAREER OPPORTUNITIES

- Enhance employability and future career progression with a named specialist pathway award.
- Can form part of a progression route to Masters study.
