ADVANCED PROFESSIONAL PRACTICE WITH PLYMOUTH UNIVERSITY

COMMUNITY AND PRIMARY CARE PRACTITIONER
### HIGHLIGHTS
- Opportunity to critically examine new service delivery models as they emerge and develop.
- Ability to deliver health promotion to a range of people and contribute to reducing health inequalities.
- Development of enhanced clinical skills to meet the integrated workforce agenda including holistic assessment, problem solving and single assessment processes.
- The development of personal leadership capabilities.

### PROGRAMME AIMS
To support you to:
- Gain a deeper understanding of the advanced clinical practice role.
- Critically analyse the community context for integrated care.
- Gain the necessary generic practice skills to function within the community/primary care environment and to analyse integrated practice.
- Think critically about the nature, purposes and practice of public health.
- Flexibly respond to the transformation of services and working across professional and organisational boundaries.

### CAREER OPPORTUNITIES
- Take on advanced practitioner roles in clinical work, teaching and management.
- Lead and innovate clinical professional practice.
- Progress to doctoral study.
