ADVANCED PROFESSIONAL PRACTICE (MENTAL HEALTH PRACTITIONER)

The MSc Advanced Professional Practice (Mental Health Practitioner) is a clinically-focused specialist pathway designed to develop enhanced mental health assessment and intervention skills for nurses and other healthcare professionals to effectively support people who are suffering from mental health problems, in their recovery journey.

HIGHLIGHTS

- A student centred approach to the programme structure provides flexibility.
- Opportunities to study in an inter-professional setting with inter-professional core and optional modules.
- Programme delivery by a team with extensive experience in masters level modules as well as a diverse range of health and social care experience.
- A close working partnership with clinicians contributing to the teaching and assessment strategy.

PROGRAMME AIMS

To support you to:

- Gain a deeper understanding of the advanced clinical practice role and how this is used to enhance the patient journey.
- Learn a range of evidence based approaches to assessment, formulation and interventions for people experiencing a variety of mental health problems.
- Enhance your skills and increase your confidence in working with people who have serious mental health problems to enable their recovery.
