ADVANCED PROFESSIONAL PRACTICE (NURSING AND MIDWIFERY PROFESSIONS)

The MSc Advanced Professional Practice (Nursing and Midwifery Professions) has been developed to be flexible to meet the needs of nurses, midwives and allied health professionals working across all health sectors. It will allow you to develop your practice by building on your current experience and knowledge which will lead to improved ways of working with a resultant positive impact on patient care.

HIGHLIGHTS

- Practice-focused contemporary modules which can be completed in two years.
- Flexibility - modules can be chosen from our portfolio with a broad range of subjects relevant to current day clinical practice.
- The programme emphasises an evidenced-based approach to healthcare, enabling application of up to date knowledge and research to practice.
- You will learn alongside other healthcare professionals to support a cross-fertilisation of knowledge and experience.

PROGRAMME AIMS

To support you to:

- Gain a deeper understanding of the advanced clinical practice role.
- Develop a critical understanding of the contemporary issues that impact on service delivery.
- Develop a contemporary approach to health and social care through advancing and utilising knowledge and skills in professional practice.
- Ensure professional practice is underpinned by a focus on excellence to transform patient and client care and sustainability.
