MSc ADVANCED PROFESSIONAL PRACTICE WITH PLYMOUTH UNIVERSITY
MSc/PgDip/PgCert

Advanced Professional Practice in DIETETICS

Designed for Registered Dietitians, this flexible pathway facilitates the development of advanced skills in clinical reasoning, critical appraisal, problem solving and leadership to enhance the application of evidence based dietetics.

Assessment is by coursework, designed to enable you to focus on your own specialist field of practice.

HIGHLIGHTS

- Learn in a team with international research profiles in Dietetics who will help you take the next step in your career.
- Blended learning with short study blocks supplemented by technology enhanced learning.
- Choose modules aligned to your individual CPD needs.

MODULES INCLUDE:

- Dietetic practice: supported study.
- Nutrition and dietetics in infancy and childhood.
- Nutrition and dietetics in common paediatric disorders.
- Advancing the management of long term conditions.
- Supporting the needs of the frail older person.
- Measuring and evaluating health and well-being.

CAREER OPPORTUNITIES

- Take on advanced practitioner roles in clinical work, teaching and management.
- Lead and innovate clinical professional practice.
- Progress to doctoral study.

“I was really impressed with the care and support I got from staff 24/7, to help me achieve internationally recognised outcomes during my MSc study.”

Ursula Lukas, Germany
