MSc ADVANCED PROFESSIONAL PRACTICE
PHYSIOTHERAPY
WITH PLYMOUTH UNIVERSITY
This pathway will help you to improve people’s health and well-being by implementing innovative, evidence based practice in a broad range of practice settings. You will be able to develop your skills and knowledge in research and scholarly activity around the core principles of Physiotherapy.

**HIGHLIGHTS**

- This pathway allows you to work flexibly, through use of blended learning with short study blocks supplemented by technology enhanced learning, using modules aligned to your CPD needs.
- You can learn in a team with international research profiles, who will help you take the next step in your career.
- Endorsed by the Chartered Society of Physiotherapists.
- Choose your options aligned to specialties such as neurology, musculoskeletal or respiratory.
- Align your options to the pillars of advanced practice - clinical practice, education, research and leadership.

**MODULES INCLUDE:**

- Advanced clinical reasoning in musculoskeletal physiotherapy.
- Injection therapy (corticosteroid or botulinum toxin).
- Enhancing practice in chronic pulmonary conditions.
- Advancing the management of long-term conditions.
- Pathomechanics and rehabilitation of gait and balance.
- Neurological rehabilitation: sensorimotor disorders.
- Supporting the needs of the frail older person.

**CAREER OPPORTUNITIES**

- Take on advanced practitioner roles in clinical work, teaching and management.
- Critically develop your knowledge and clinical skills and your ability to lead and innovate professional practice.
- Progress to doctoral study.

**I have been able to tailor each of my assignments to my own professional area of interest making my learning more enjoyable and transferable to my practice**

Ian Longbottom, Physiotherapist Lead
