CONTEMPORARY HEALTHCARE (EDUCATION)

The MSc Contemporary Healthcare (Education) enables those working in health and social care to develop a career in teaching in academic or clinical setting. The programme meets the requirements of professional bodies such as the Nursing and Midwifery Council recordable teaching qualification as well as the award of Associate Fellow, Higher Education Academy.

HIGHLIGHTS

• Choose a route within the programme to meet your personal and professional development needs, undertaking a seamless journey from practitioner to educator.
• The programme has been developed by the academic team in collaboration with students and service providers.
• Blended learning, which includes e-learning and problem based learning.
• Part-time offer only to suit your practice requirements.

PROGRAMME AIMS

To support you to:

• Enable your teaching to empower students on a personal, professional and community level with a world-wide perspective of education.
• In Higher Education Institutions, to become part of an academic community working to develop, impart and apply current knowledge using a range of teaching and learning approaches.
• In practice settings, to identify and meet the clinical team's continuing professional development needs whilst also leading the development of practice.

MODULES

Core and specialist core modules

• Introduction to teaching and learning
• Teaching for practice
• Advancing research knowledge in practice 1
• Advancing research knowledge in practice 2
• Dissertation

Optional modules (not exhaustive)

• Developing professional practice
• Negotiated study module

CAREER OPPORTUNITIES

• Become a clinical educator in a hospital setting or take a teaching role in a Higher Education Institution. It is also possible to open a teaching consultancy.
• Achievement of the MSc enables you to undertake a PhD or other professional development programmes. You can also pursue a Senior Fellowship or Principal Fellowship.
